

COUNCIL COMMISSIONER'S

Outdoor
Challenge

AWARD

PURPOSE

The purpose of this award is to encourage participation in outdoor Scouting activities appropriate to your section. The types of activities are only limited by your section's imagination and could include:

Wide games, camporees, Scoutrees, star gazing litter clean-up, jamborees, pioneering snowshoeing backpacking, nature ramble, collecting natural objects, bicycle rodeos, etc.

Criteria

An important point to remember is that all the activities take place outside the regular meeting hall.

For Venturers and Rovers this would include staff time at special outdoor events such as camporees and jamborees.

The number of hours of participation shall be calculated based on the actual time spent outdoors by your section, not the total of individual members. Example: a three (3) hour hike only counts for three (3) hours no matter how many members take part.

Logbooks must be kept of all outdoor activities and shall record the type of activity, location, number of participants, comments, and perhaps some drawings or pictures.

After completion of the requirements, the logbooks would then be submitted for approval.

Each member of Sections fulfilling the PC Challenge Award requirement, receives a colourful crest for their jacket or campfire blanket. Troop will receive a crest for their section flag.
